Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Proposed amendments to the independent claims were discussed. The proposed amendments incorporated subject matter from dependent claims 2 and 5. It was stated that the concept of upgrading software by pushing upgrades from the master node to a slave node is well known in the art and that the claim language was still very broad even when taking into consideration the proposed amendments. It was suggested that the claim language also incorporate claim 6 or claim 7 in order to clearly represent the invention. The interview ended with the attorney stating that he would share this suggestion with his client.
